Low Carbon Business Programme

**Thames Gateway South Essex- Leading a
Low Carbon Economy Project.**

**ROCHFORD DISTRICT COUNCIL IS KEEN
TO HEAR FROM LOCAL BUSINESSES WHO
WANT TO SAVE MONEY AND HELP THE
ENVIRONMENT**

The Council and various organisations are working to deliver the Thames Gateway Leading a Low Carbon Economy Project (TGLLCE), which aims to help businesses reduce their carbon footprint and make efficiency savings.

Small and medium sized businesses (1 - 250 employees) will receive a free energy audit which can be used to develop an environmental action plan. The plan will outline ways in which businesses can run in a more energy efficient manner to help to save costs and reduce their carbon footprint. The project also offers grant funding and other financial support for businesses.

Rochford District Council is working with partners from Thurrock Council, Essex County Council, Groundwork South Essex, Southend Borough Council, Basildon District Council, Castle Point District Council, Thurrock Thames Gateway Development Corporation, Thurrock Local Enterprise Agency and National Industrial Symbiosis Programme on behalf of International Synergies Limited and is being funded by the East of England European Regional Development Fund (ERDF).
