

Rochford District Council – select list application

Rochford District Council is always keen to build relationships and work with local businesses. As such, we welcome introductions from new suppliers.

Building maintenance select list

The Council currently have a limited amount of works during the year. This is due to the fact that our housing stock has been transferred to Rochford Housing Association and our leisure building maintenance is the responsibility of our leisure management company, Virgin Active. For this reason we do not maintain our own select list.

Instead the Council generally use Constructionline when selecting contractors to invite to tender for various work projects. Details can be found at www.constructionline.co.uk

How does it work?

Once a company is registered with Construction line and has expressed an interest in working with us, we are able to add them to our own approved contractor list. When a specific project falls due for tendering, we use this list to randomly select contractors from the appropriate category to invite to tender for the works.

If you are already registered, please contact kerry.wastell@rochford.gov.uk quoting your constructionline registration number and we will be happy to add you to our list.

Other categories

The Council are aware that not all suppliers fit within the categories on Constructionline and for this reason we do not insist on all companies registering.

For suppliers who fall outside of the scope of constructionline, the Council would welcome an introduction in writing. We would then keep your details on file in case a future need arises for your type of service.

Please refer to the buyer guide below for the appropriate contact for your type of service:
