Announced/Unannounced

Met with Wayne Meredith, explained reason for visit and he said I am welcome to go around site alone as he did not want to go into peoples units. ~~There were~~ He said there was no one living on the site and the people reporting are obviously jealous or angry about ~~some~~ something. He said there are caravans next door but they are for sale and I could only see one. It was within a close boarded metal fence and gates locked. Wayne did not have the keys. Looking through small gaps it did not appear lived in, no curtains.

Asked Wayne to pass my details to his tenant so I can arrange time to visit to inspect inside caravan - left site ok. No evidence of residential use on rest of site.
