35	3.17	<p>The Core Strategy (Policy H2) identifies that the site in this general location should have the capacity to accommodate a minimum of 550 dwellings during the plan period. The site identified in Figure 6 is capable of providing 550 dwellings at a density of 30 dwellings per hectare, plus a flexibility allowance of 5%, if required. The overall site area is 38.8 <u>42.1</u> hectares to take account of site constraints and to accommodate the following infrastructure, services and facilities:</p>	The western boundary of SER1 is proposed to be amended (see below).

		<p>thirds) of dwellings are accessed from London Road. The potential to provide a circular link with one strategic access point and one secondary access point onto London Road should be explored. A bus link will be created between Rawreth Lane and London Road (see Figure 7). However, the road layout within the site will be such that there is no link for private cars between Rawreth Lane and London Road through the site. This could take the form of bus gates, cameras, and/or other forms of engineering to ensure that the relevant section of road is only suitable for buses. This should be determined at the planning application stage in consultation with the relevant bus company and the local highways authority. In addition a Traffic Regulation Order would be required to restrict movement for other road users along this route. However, a link between London Road and Rawreth Lane for all forms of transport may be explored.
