Animal Boarding Establishments Act 1963

Licence Conditions for Dog Boarding Establishments

Unless otherwise stated, these conditions shall apply to all buildings and areas to which dogs have access and/or are used in association with the boarding of dogs.

Use of the term “kennel” refers to combined sleeping and individual exercise areas.

1 Number of Animals

1.1 Number of Dogs Permitted

1.1.1 The maximum number of dogs to be kept at any one time is .......... [TO BE DETERMINED BY THE LOCAL AUTHORITY]

An application to vary the numbers and types of animals kept at the premises shall be in writing and include details of their accommodation. The application must be accompanied by the appropriate fee in part payment of the variation fee and give an undertaking to pay any veterinary expenses which form part of the variation fee.

1.1.2 Each dog must be provided with a separate kennel except that dogs from the same household may share a kennel of adequate size with the written consent of the dogs’ owner.

1.1.3 Holding kennels may be provided for temporarily kennelling a dog for not more than 24 hours. Holding kennels, if provided, must comply with conditions as required for main kennels. Holding kennels must be a minimum area of 2.3sq m (25sq ft)

1.1.4 No animals other than dogs are to be boarded within the licensed facilities without the written approval of the Local Authority.

1.1.5 Where stray dogs are accepted by the kennels they must be kept in a separate area away from boarded dogs.

1.2 Kennel Size, Layout and Exercise Facilities

1.2.1 For new kennels each kennel must be provided with a sleeping area of at least 1.9sq m (20sq ft).
1.2.2 Suitable bedding equipment must be provided which allows the dog to be comfortable and which is capable of being easily and adequately cleaned and sanitised. Such equipment must be sited out of draughts. All bedding material must be maintained in a clean, parasite free and dry condition.

1.2.3 For new kennels each kennel must be provided with an exercise area of at least 2.46sq m (26sq ft) (for dogs up to 0.60m [24 inches] high at shoulder) or 3.34sqm (36sq ft) for larger dogs, which is separate from the bedding area and exclusive to that kennel, for free use by the dog at all times except at night.

1.2.4 Kennels must have a minimum height of 1.8m (6ft) to facilitate adequate access by kennel staff for cleaning.

1.2.5 Kennels and exercise areas must open onto secure corridors or other secure areas so that dogs are not able to escape from the premises.

1.2.6 Exercise areas must not be used as bedding areas.

2 Licence Display

2.1 A copy of the licence and its conditions must be suitably displayed to the public in a prominent position in, on or about the boarding establishment.

3 Construction

3.1 General

3.1.1 The establishment must, at all times be laid out and operated in accordance with an approved plan, to be attached to the licence. Before carrying out any alterations, plans must be submitted to and approved by the licensing officer of the local authority.

3.1.2 Where wood has been used in existing construction it must be smooth and treated to render it impervious. Wood should not be used in exposed construction of walls, floors, partitions, door frames or doors in the dog kennelling area. There must be no projections liable to cause injury.

3.1.3 Fencing material must be secure and safe.

3.1.4 Sleeping areas of kennels must be so insulated as to prevent extremes of temperature.

3.1.5 The construction must be such that the security of the dog is ensured.

3.1.6 All exterior wood must be properly treated against wood rot, e.g. Tanalised. Only products which are not toxic to dogs may be used.
3.1.7 All internal surfaces used in the construction of walls, floors, partitions, doors and door frames to be durable smooth and impervious. There must be no projections or rough edges liable to cause injury.

3.2 **Walls and Partitions**

3.2.1 Walls with which dogs may come into contact must be of smooth impervious materials, capable of being easily cleansed. Where concrete or other building blocks or bricks are used in such walls, they must be sealed so as to be smooth and impervious, and resealed as necessary.

3.2.2 Junctions between vertical and horizontal sections should be coved. If impractical in existing premises, all joints must be sealed.

3.2.3 Partition walls between kennels must be of solid construction to a minimum height of 1.2m (4ft).

3.2.4 In new construction, in exercise runs the lower section of partitions in adjoining runs must be of solid construction.

3.3 **Floors**

3.3.1 Floors of all buildings, individual exercise areas and kennels, must be of smooth, impervious materials, capable of being easily cleansed and in new kennels must incorporate a damp proof membrane.

3.3.2 All floors of kennels, common areas and individual exercise areas must be constructed and maintained in such a condition as to prevent ponding of liquids.

3.3.3 In new constructions floors must be laid to a minimum fall of 1 in 80 leading to a shallow drainage channel or effectively covered deep drainage channel.

3.3.4 Communal exercise areas must be suitably drained but need not comply with conditions 3.3.1 and 3.3.2.

3.4 **Ceilings**

3.4.1 Ceilings must be capable of being easily cleansed and disinfected.

3.5 **Doors**

3.5.1 Kennel doors must be strong enough to resist impact and scratching and must be fitted so as to be capable of being effectively secured.

3.5.2 Where metal bars and frames are used, they must be of suitable gauge (approximately 10-14) with spacing adequate to prevent dogs escaping or becoming entrapped. Where metal edging is used, this must not present a risk of injury to the dog.

3.5.3 Door openings must be constructed such that the passage of water/waste is not impeded, or allowed to gather due to inaccessibility.
3.6 Windows

3.6.1 All windows which pose a security risk must be escape proof at all times.

3.7 Drainage

3.7.1 The establishment must be connected to mains drainage or an approved, localised sewage disposal system.

3.8 Lighting

3.8.1 During daylight hours light must be provided to exercise and sleeping areas so that all parts are clearly visible. Where practicable this must be natural light.

3.8.2 Adequate supplementary lighting must be provided throughout the establishment.

3.9 Ventilation

3.9.1 Ventilation must be provided to all interior areas without the creation of excessive, localised draughts in the bedding area.

3.10 Maintenance

3.10.1 Maintenance and repair of the whole establishment must be carried out regularly.

4 Management

4.1 Training

4.1.1 A written training policy must be provided. Systematic training of staff must be demonstrated to have been carried out.

4.2 Temperature In Kennels

4.2.1 Heating facilities must be available in the kennel and used accordingly to the requirements of the individual dog.

4.2.2 There must be some part of the dog’s sleeping area where the dog is able to enjoy a temperature of at least 10°C (50°F).

4.2.3 In isolation kennels there should be a means of maintaining the temperature at a level suitable for the conditions of the dog and dependent on veterinary advice.

4.2.4 Open flame heating appliances must not be used in individual kennel units.

4.3 Cleanliness

4.3.1 All kennels, corridors, common areas, kitchens etc. must be kept clean and free from accumulations of dirt and dust and must be kept in such a manner as to be conducive to maintenance of disease control and dog comfort.
4.3.2 Each occupied kennel must be cleansed daily. All excreta and soiled material must be removed from all areas used by dogs at least daily and more often if necessary.

4.3.3 All bedding areas must be kept clean and dry.

4.3.4 Each kennel must be thoroughly cleansed, disinfected and dried upon vacation. All fittings and bedding must also be thoroughly cleansed and disinfected at that time.

4.3.5 Facilities must be provided for the proper reception, storage and disposal of all waste. Particular care should be taken to segregate clinical waste arising from the treatment and handling of dogs with infectious diseases. The final disposal route for all such waste should comply with current waste regulations and these conditions.

4.3.6 Measures must be taken to minimise the risks from rodents, insects and other pests within the establishment.

4.4 Food And Water Supplies

4.4.1 All dogs must be adequately supplied with suitable food. Wholesome water must be available at all times and changed daily.

4.4.2 Eating and drinking vessels must be capable of being easily cleansed and disinfected to prevent cross-contamination. They must be maintained in a clean condition.

4.4.3 Eating vessels must be cleansed after each meal.

4.4.4 Drinking vessels must be cleansed at least once a day.

4.5 Kitchen Facilities

4.5.1 Exclusive facilities, hygienically constructed and maintained, must be provided for the storage and preparation of food for the dogs.

4.5.2 Where fresh and cooked meats are stored, refrigeration facilities must be provided, and potential food contamination must be avoided.

4.5.1 A sink with hot and cold running water must be provided for the washing of food equipment and eating and drinking vessels. A separate wash-hand basin with hot and cold running water, soap and clean towel must be provided for staff use.

4.5.2 Containers must be provided for the storage of foods and shall be so constructed and kept in such good order, repair and condition as to be proof against insects and other pests.

4.6 Disease Control and Vaccination

4.6.1 Adequate precautions must be taken to prevent and control the spread of infectious and contagious disease and parasites amongst the dogs, staff and visitors.
4.6.2 Proof must be provided that dogs boarded or resident have current vaccinations against Canine Distemper, Infectious Canine Hepatitis (Canine adenovirus), Leptospirosis (L. canicola and L. icterohaemorrhagiae) and Canine Parvovirus and other relevant diseases. A record that this proof has been supplied must be kept on-site throughout the period that the dog is boarded. The first treatment in a course of vaccination must have been administered at least one week before the first date of boarding. Subsequent treatments should be as prescribed by the veterinary practitioner.

4.6.3 Advice from a veterinary surgeon must be sought in case of signs of disease, injury or illness. Where any dog is sick or injured any instructions for its treatment which have been given by a veterinary surgeon must be strictly followed.

4.6.4 A well stocked first-aid kit suitable for use on dogs must be available and accessible on site.

4.6.5 A suitable range of muzzles of varying sizes and a suitable dog catching device must be kept on site.

4.7 Isolation

4.7.1 Isolation facilities must be provided.

4.7.2 In existing facilities these isolation facilities must be in accordance with the other boarding requirements but must be separate and physically isolated from the main kennels. This must be a minimum distance of 5m (16ft). In the new build isolation facilities separated 10 metres (33ft) from the main units must be provided. (See also temperature control).

4.7.3 Adequate facilities to prevent the spread of infectious disease between the isolation and other kennels must be provided.

4.7.4 Hands must be washed after leaving the isolation facilities and before visiting the other kennels.

4.8 Register

4.8.1 A register must be kept of all dogs boarded. The information kept must include the following:-

- date of arrival
- name of dog, any identification system such as microchip number or tattoo
- description, breed, age and gender of dog
- name, address and telephone number of owner or keeper
- name, address and telephone number of contact person whilst boarded
- name and address and telephone number of dog’s veterinary surgeon
- anticipated and actual date of departure
- health, welfare and nutrition requirements
- product name and date of treatment with any proprietary insecticide prior to arrival
4.8.2 The register must be kept readily available for a minimum of 24 months and kept in such a manner as to allow an authorised officer easy access to such information.

4.8.3 Where records are computerised, a back up copy must be kept. The register must also be available to key members of staff of the establishment at all times.

4.9 Identification of Kennels

4.9.1 Each kennel must be clearly marked (e.g. numbered), and a system in place which ensures that relevant information about the dog in that kennel is readily available.

4.10 Supervision

4.10.1 A fit and proper person must be resident at the premises at all times and the premises must not be left unattended for more than four hours while any dogs are boarded there.

4.10.2 Dogs must be visited at regular intervals as necessary for their health, safety and welfare.

4.11 Fire Precautions

4.11.1 Appropriate steps must be taken for the protection of the dogs in case of fire or other emergencies.

4.11.2 A proper emergency evacuation plan and fire warning procedure must be drawn up and posted on the premises. This must include instructions on where dogs are to be evacuated to in the event of a fire or other emergency.

4.11.3 Fire fighting equipment must be provided in accordance with advice given by the Fire Prevention Officer.

4.11.4 All electrical installations and appliances must be maintained in a safe condition. There must be a residual current circuit breaker system on each block of kennels.

4.11.5 Heating appliances must not be sited in a location or manner where they may present a risk of fire, or risk to dogs.

4.11.6 Precautions must be taken to prevent any accumulation which may present a risk of fire.

4.11.7 There must be adequate means of raising an alarm in the event of a fire or other emergency.
